Dear Resident

I was born in Fenpark Road Fenton, my father was a miner and my mother was a pottery worker. I went to local schools and started work with local building firm Seddon as an apprentice plumber. I later started my own plumbing and central heating business. Having now retired and living in Lightwood, I was married for many years to my childhood sweetheart Christine who was also a successful councillor for Meir Park and Sandon ward. Sadly Christine passed away just over a year ago. I have a long track record of supporting the people who vote for me, and at present I am a very active councillor for Trentham and Hanford ward where I fought alongside parents and friends of Trentham High School to prevent it from being closed. I was also an active councillor for Fenton for 8 years and fought with the residents to prevent the Pandariman Trust from building on Fenpark Green in the eighties. I am a wholly committed and loyal representative for the people, and you can trust me to deliver your message to Parliament.

I believe it would be good to have an M.P. who listens to what people are saying. Such as:-

- It would be good to have an M.P. born and bred in Stoke South.
- It would be good to have an M.P. who comes to see you in your home.
- It would be good to reform the justice system so that a life sentence means just that.
- It would be good to bring home our troops.
- It would be good to restrict immigration.
- It would be good to make our borders safe and secure.
- It would be good to see the benefit system only paying out to those who have contributed and those with special needs.
- It would be good to have accurate figures about who is in this country, and speed up the application of visas and enforce speedy deportation where appropriate.
- It would be good to have more well paid and secure jobs in the City.
- It would be good to have an MP so committed he pays his own election expenses and deposit, and who will always act with honesty and accountability.

**THIS IS YOUR OPPORTUNITY TO ELECT
A CAPABLE LOCAL MAN WHO WILL
NOT IGNORE YOUR WISHES AS
MAINSTREAM
PARTIES HAVE IN THE PAST.**
