

INDEPENDENT Leave-the-EU Alliance

The Patriotic British WORKING for a Free Britain
Reclaim YOUR Future

INDEPENDENT Leave-the-EU Alliance MANIFESTO:

We have been unable to find a single solitary Manifesto supplied by any Political Party in Britain that has clearly and unequivocally stated that their Manifesto is not worth the paper it is printed on and is a pack of lies designed to dupe you into voting for them.

We at **INDEPENDENT Leave-the-EU Alliance** believe it is dishonest to pretend to offer any kind of Manifesto for the following reasons:

Under the terms of the New Constitution even when called The Lisbon Treaty, which came into force, signed and agreed by The British Government which is the Party in power (Nu Labour) and Her Majesty's Loyal Opposition (Conservatives), on 01-Dec-2009 - it is clear NO PARTY can enact Law without EU permission and they have NONE of them received approval signed by Britain's Masters in Brussels for their Manifesto.

We believe that it is dishonest to publish a 'Wish List' when you know that without EU permission you may not impliment it.

We believe that during the time that we are still a Vassal State entrapped in The EU Supra National State Governed directly from their centralised Government in Brussels and Strasburgh there is no validity or integrity in publishing a Manifesto as it is only a con to get votes and can not be carried out if elected.

Therefore we at **INDEPENDENT Leave-the-EU Alliance** Do NOT Publish a Manifesto as we do not wish to lie to the British electorate or dishonestly mislead them.

At **INDEPENDENT Leave-the-EU Alliance** our Candidates and our central organisation publish, in their own names, sets of values and views to which they adhere, they may well also publish views as to what they hold dear and that which they would wish to implement once these United Kingdoms are liberated from the thrall of the EU and its malign influence and denial of Democracy, in any meaningfull sense, and the Denial of the fundamental

Human Right of freedom and the right to Self Determination.

That is NOT a Manifesto but quite clearly values and hopes for the future.

It is entirely upto members and the electorate to decide whether they wish to support such **INDEPENDENCE** and the concepts of the various **INDEPENDENT** candidates, organisers and members of the **Alliance**.

We at **INDEPENDENT Leave-the-EU Alliance** believe that from the day that we obtain our Liberty, repatriate OUR Democracy, reinstate OUR Sovereignty, reconfirm OUR Borders, reintroduce British Justice, remove the concept that Human Rights are in the gift of the State on license as with The EU & UN - Then will be time enough to consult the peoples of these United Kingdoms as to the style of their Governance and the manner it carries out its duties to them and the commensurate Manifesto undertakings.

We at **INDEPENDENT Leave-the-EU Alliance** are not only aware but make the fact that Politicians and The State and its servants are the servants of the people a founding principle of our **Alliance**.

We at **INDEPENDENT Leave-the-EU Alliance** expect, when the time comes and we have the liberty required to make Manifesto commitments, we then expect each **INDEPENDENT** member of the **Alliance**, which in that the **Leave-the-EU** aspect will have been achieved will be very different; we then expect the **INDEPENDENT** individuals to draw up a Manifesto in two very distinct sections, after extensive consultation with the electorate.

Section One:

The firm Manifesto undertakings which they will adhere to both in principle and in detail and accept that if they are unable so to do they will forthwith tender their resignation from their elected office and cause a by-election - in which they may stand with their ammended Manifesto.

Section Two:

The Manifesto issues on which they intend to campaign if elected which are available as trading points to ensure their principle aims under *Section One* are achieved - These may be considered secondary and to be aimed for.

It will be the choice of the **INDEPENDENT** Ondividual as to what issues they will stand on in *Section One* and also those in *Section Two* - It is THEIR Manifesto as **INDEPENDENTS** and it is they who will campaign based upon it, it is therefore of value to them to act in **Alliance** with other **INDEPENDENT** candidates to provide a Manifesto with a resonance with the electorate.
