

THE PEOPLES NATIONAL DEMOCRATIC PARTY

‘For the People, For the Nation’

On behalf of **The Peoples National Democratic Party**, I would like to provide an **overview** of how we, as a Political Party, view the current political, economic and social ‘state’ of our Nation. We also explain issues and policies that we wish to instigate on behalf of you, the People of Great Britain. I feel it is an **open** and in some cases, **brutally honest** appraisal of how things are and how they effect both you and Britain.

At the end of this ‘overview’ we would like to present our...

... ‘Concise guide to **The Peoples National Democratic Party** policies’ ...

It covers things that we believe actually mean something to you regarding **your hopes** and more recently, **your fears** on a number of very important issues:

- National Economic **decline**
- Unemployment
- The **break down** in Law and Order
- **Rising** and **unsustainable** levels of Immigration
- Europe and the EU ‘**Dictatorship**’
- The NHS
- Education
- National Security

Tracy Greenwood
Deputy Party Leader

Overview of Economic and Social Britain September 2009

The UK, the Nation we all hold so dear is economically and socially decaying and ultimately, 'dying'.

The cause of our Nation's 'terminal illness' is complex to say the least - but here is THE KEY REASON:

Britain can not 'pay its way'

If this Country was a 'business' then it would have been **bankrupted** by its 'creditors' decades ago. The revenue that this Country generates, to 'function' as we would wish it to, is **NO LONGER ENOUGH**. The ever increasing **National Debt** of this Country, if allowed to continue under a Labour Government, will completely destroy Britain economically. More frighteningly, **IF** the Country was to be run by The Conservatives, along with their obvious 'divisions and potential infighting', then it would only **hasten** Britain's decline!

What both Labour and The Conservatives seem to **CONSTANTLY** forget and realise, is with whom the real '**strength**' of Britain lays. **It is with You!** Those of you that have contributed **MOST** to keeping Britain 'financially functioning' have been the **hard working people** and **businesses** of Britain. Through your income and corporation taxes, national insurance contributions, as well as the '**overburdening multitude**' of **other taxation forced on you in your day to day lives** means that.....

.....YOU HAVE DONE AND CONTINUE TO DO, YOUR PART!

At **your** 'expense', over the past few decades, both Labour and Tory policies have '**used you and bled you dry**' – **WITH NO RETURN**. The major part of your 'financial graft' does not go on benefiting **YOU**. Your **reward** for 'working hard' and 'playing fair' has meant:

- **It has not made your jobs or businesses economically safer**
- **It has not stopped Mass Unemployment**
- **It has not created any major number of new jobs**
- **It has not stopped your daily living expenses going up and up**
- **It has not gone towards making Education better**
- **It has not gone towards finding jobs for school leavers**
- **It has not gone to improving The NHS**
- **It is not gone towards fighting Crime**
- **It has not stopped 'immigrants' financially abusing our Nation**

What has **DEFINATELY** been 'created financially, economically and socially' is a system where:

- **Welfare cheats, scroungers, the dysfunctional, the anti-social, the ‘lazy’ and the criminal all thrive. For example, over the years, both Tories and Labour through their ‘policies’, have ‘rewarded’ and ‘promoted’ the idea that ‘certain forms of single motherhood’ and ‘family breeding programmes’ can be a type of ‘career path’ for certain elements within our society. For ‘certain people in our society’ successive Governments have induced this ‘type of lifestyle’ as a means to achieve regular ‘state handouts’ with ‘free accommodation’ thrown in**
- **The reward and welcome of ‘unjustified and undesirable immigrants’ is common**
- **We pander to Brussels and the EU policies at the expenses of our own ‘Britishness’**
- **We pander to, and waste billions upon billions of pounds per annum, to the ‘politically correct brigade’ and ‘do-gooders’, who support all of ‘the above’**
- **Successive Conservative and Labour Governments have practically destroyed the ‘Industrial Manufacturing Infrastructure’ of Britain and made Britain into a ‘Service Nation’ – specialising in..... ‘BANKING’!**
- **Successive Conservative and Labour Governments have undermined our hardworking and under resourced Emergency Services and NHS**
- **They have undermined and under-equipped our brave Armed Forces. The way both Conservative and Labour Governments have also neglected the families of our military personnel is the most distasteful crime of all. Squalid living conditions, making the injured service personnel ‘fight for compensation’, lack of support etc, etc. These are some of the COWARDLY ACTS perpetrated by this Government actually ON our own brave and courageous troops and their families**
- **Conservatives and Labour ineffectually ‘rewrite’ and constantly ‘tinker’ with education to the degree that teaching staff, pupils and parents are not sure ‘where any of us are heading’**

All in all, those most suffering now under this inept Labour ‘Government’ are YOU, the People. You are continually ‘financially put upon’ and ‘financially beaten’ with more and more taxes and a National Economy that is in ‘freefall’!

The Culprits

For many decades Labour and Conservative Governments have passed our Nation's economic and social **wellbeing** back and forth between themselves. They have pulled and tugged at the 'intricate contents' of our Nation, like **children** in a game of 'pass the (Nation) parcel'. Each of these '**children**' has had their turn 'tearing and ripping off' the layers.

The recent and **disgusting revelations** of the currently elected Westminster MPs and their **Expenses Scam/Scandals**, has truly shown us all that we really have been **on our own** as a Nation. Your elected MPs have been given **your trust**. In return you've been repaid with utter **contempt and disrespect** by not just this current 'impotent, misguided and out of touch' Labour Government but also by the so-called, 'Opposition Parties'. They have **all** had their **snouts** in the trough!

Decent, hard working 'every day people' of Britain realise that this type of behaviour is **morally wrong**. If any other 'employee' (which MPs are, as they are 'employed' by you), was **caught** acting like this, then they would be:

- Instantly dismissed.
- Lose **ALL** rights to pensions/benefits.
- Potentially face prosecution.

You would not do it.

Why should MPs!

Even now that they have been **caught red handed**, they still have no semblance of '**moral fibre or backbone**' to say 'it's a fair cop' and choose to voluntarily 'step down'. Like the worst forms of a *recidivist* they protest their innocence, so that they are able to **continue** to receive their salaries, then receive their de-selection '**golden handshake**' and finally be '**pensioned off**' – **ALL AT THE TAXPAYERS EXPENCE!**

Not one of them is worthy of asking you, the populace, of '**your grace and favour**' to allow them to continue in office.

The vast majority of the current Westminster MPs and their Political Leaders have allowed this **abuse** to go on for years! As they have all tried to cover up these 'illicit claims' and proven that they can not be 'trusted', how do we now move forward as a Nation politically and economically?

The Peoples National Democratic Party proposes to change **drastically**, how MP's are remunerated. Our proposals will not be liked at all by our political opponents as it will mean that the **Gravy Train** that they have all been 'aboard' will be coming to a **grinding halt!** The current **crop** of MP's continue to **bleat** on about not 'earning enough' and 'no one could be an MP' on what they earn!

They do not live in the same world as the rest of us!

TRANSPARENCY and FAIRNESS for our Employers – You, the Taxpayers!

We also believe that current MPs no longer spend enough time back in their Constituencies working for the benefit of their local constituents, the very people who elected them. How often do you actually see them 'working locally'?

There are 2 main reasons for this:

- **The more days away, 'out of their constituencies', the more they are able to MAXIMISE their expenses claims/abuse**
- **It is easier to 'sit around' at Westminster 'bickering and playing politics'. Nowadays it seems, very few MP's actually want to get their 'hands dirty' and try to work towards addressing, first hand, the economic and social problems, that are manifesting in their own 'back yards'. They are mostly distant from 'you, their electorate'- until of course, the 'run up to re-election'**

A Peoples National Democratic Party MP is committed to give their constituents, **constantly**, the **MAJORITY** of their working time - **LOCALLY**.

We want our MPs to put their constituents FIRST, not 'third'.
