The Realists' Party

The objective being to improve people's lives whilst using thrift and clearing the national debt

Education

Introduce Grammar Schools plus Creative Schools. If there is not enough money to do this at the moment introduce Grammar wings in existing schools. Allow those that want to, to leave at fifteen. Introduce fast track University courses, reducing the duration of all present courses. A campaign to prevent young people from starting to take drugs.

Finance

Always keep the £. Pull out of the E.U. Brussels waste of money club but liaise with our European neighbours and support them to overcome their difficulties. Never lend what we cannot afford to loose. Discuss having all future Olympic Games in Greece, allowing them to make money and taking away the worry and burden of debt from other countries. Reduce income tax as we clear the national debt. Review the "buy to let" system that keeps tenants prisoners to poverty and is a blight on our economy. Unravel E.U. rules. Discuss re-introducing MIRAS (Mortgage Interest Relief at Source) for first time buyers. Tax reduction for married couples.

Child Benefit

Stop it in its present form, then introduce for all new claimants, for the first child only £28.00? to be claimed by the Father payable to the Mother. For Women who have worked a tax rebate should be paid to them on having their first child based on every year they have worked.

Retirement Age

Remain at 65 for men, 66 for Women, securing employment for women.

Health

Promote keep fit plus hobbies and healthy living, taking demands off the national health system. Patients to pay £35.00 towards abortion giving a sense of responsibility.

Crime

Educate young people to stay away from crime and not to be tricked into it. Then show them the direction to take to give them the life they can appreciate. If this fails put prisoners on a value for money two day tough intensive training course incorporating writing selective words and sentences to rehabilitate. Make the law clear on defence of the home and the person. Put in place a punishment system that fits the crime and is a deterrent.

Immigration

Stop it until such time we have cleared the national debt allowing services and systems to cope then rethink current immigration systems.

Foreign Policy

Remind everyone we live in space and as it is held so intricately spinning. It is fragile. So we must be thoughtful with our actions. Try with our utmost to take harmony to countries with conflict. Take poverty OFF our planet. We are the only party with the expertise to do this. Liaise with African countries about building houses giving people in England a new route to life, away from horrible flats and sink estates. Inform the Saudi Arabians of the advantages of allowing women to drive.

Human Rights

Try to negotiate them in countries that do not have them. Allowing criminals to be deported.

The choice of smoking and non smoking pubs, clubs and restaurants.

Speed limit on motorways 80mph.

Keep the time in Greenwich.

Aviation

No expansion of London airports, why waste billions of borrowed money building an island when our land is an island.

Defence

Always defend the United Kingdom to the full. Plus our Planet.

Jane Lawrence is your candidate

Jane joined London Transport in the mid-seventies and in the Thatcher era was 'encouraged' to drive a London bus. It turned out to be the best move she ever made. Now she drives coaches and has been doing so, for 24 years. Her 'VIEWS' have made it her duty to be involved in politics.
